Nine year old Emilie from Tamworth with her Chameleon 3/4 size violin

*I love the color and the shape. They are really cool and get me to practice because now I love playing my epoch violin.....the old violins were boring.
Leah - aged 9 - Student at South Australian Wilderness School*

The sound is absolutely incredible... the half size violins sounds just as good as the full size instrument which is unusual because most of the time the smaller the instrument the less tonal quality...you can hear the resonance virtually in every note you play ..
